Professional Summary

Passionate developer focused on building efficient, scalable web applications. I enjoy solving complex problems, contributing across the development lifecycle, and exploring new technologies. I am interested in machine learning and Azure-based DevOps, with a drive to build smart, reliable systems.

Education

M. Kumarasamy College of Engineering — 2022 – 2026
B.Tech – Artificial Intelligence and Machine Learning — CGPA – 8.113 as of 5th semester

Cheran Martic Higher Secondary School — 2021 – 2022
Higher Secondary Education — 89.50%

Cheran Martic Higher Secondary School — 2019 – 2020
Secondary School Leaving Certificate — 75.6%

Skills

Intermediate

- PYTHON, HTML, CSS, JAVA SCRIPT, SQL, GIT and GITHUB, MACHINE LEARNING.

Beginner

- REACT JS, DEVOPS, JAVA, POSTMAN.

Professional Experience & Projects

1) Grievance Portal — July 2024 – October 2024
Source Link

Title : **MKCE – Grievance Management System**
Description : Developed a web-based grievance portal with real-time responses to user complaints and queries based on uploaded grievance documents.
Role : Led the team by managing tasks and ensuring smooth collaboration. Designed the frontend integration with interactive model
Technology : Laravel, MySQL.

2) Discipline Portal — October 2024 – January 2025
Source Link

Title : **MKCE – Discipline Record Management System**
Description : Developed a web-based Discipline Record Management System. The system supports dynamic record handling, student-wise categorization, and seamless navigation for managing disciplinary actions.
Role : Handled backend development implemented CRUD operations using PHP and MySQL, designed the database schema, and integrated Ajax with jQuery for seamless asynchronous interactions.
Technology : HTML, CSS, JavaScript, PHP, Ajax, Jquery, MySQL.

3) E-Learning Portal February 2025 – Present

Title **: SOWBERRY – AI BASED E-LEARNING PLATFORM WITH ONLINE COMPILER**

Description **:** Developed an AI-powered e-learning platform that offers personalized learning paths, integrated quizzes, and an in-browser code compiler to help students practice and improve coding skills in real-time.

Role **:** Designed and implemented the platform's core architecture, integrated an online code compiler, and used AI models to recommend learning content based on user progress.

Technology **:** HTML, CSS, JavaScript, PHP, MySQL, AI APIs, JSON, Online Compiler API.

Certifications

- **Python for Data Science** issued by NPTEL September 2023
- **The Joy of Computing using Python** issued by NPTEL April 2024
- **HR Analytics** issued by NPTEL September 2024
- **GitHub Foundation** issued by GITHUB December 2024

Industrial Experience

Company **:** Technology Innovation Hub – MKCE.

Role **:** Software Developer

Duration **:** April 2024 – Present

Work **:** I contributed to the development of scalable web applications and internal tools. Involved in backend logic implementation, database management using MySQL, and building responsive UI components with HTML, CSS, JavaScript, and jQuery. Collaborated with cross-functional teams to deliver innovative tech solutions aligned with institutional goals.

Achievements and Recognition

- **Finalist** of PECHACKS 2.0 a Pan India Hackathon conducted by PEC.
- Honored as a **Guest Lecture** for Git vs GitHub event organized by PEC, Chennai.
- Organized various events at my college, including **Orlia'25** and **Trenz'25**.
- Honored as **Student of the Month** at our department for top academic performance and leadership in tech activities.
- Participated in multiple tech events hosted by other colleges.
